Web Development

Web Development

PLEASE NOTE

The prices indicated in the price list are approximate and serve as a starting point for estimation.

The final price for our services may vary depending on various factors, including the project's complexity, timeline, specific client requirements, and additional features.

For an accurate and personalised quote, please get in touch with our team, and we will be happy to provide a detailed assessment based on your unique project needs.

Your satisfaction is our priority, and we aim to deliver cost-effective solutions tailored to your specific requirements.

FRONTEND

User Interface Development	€1,000
HTML, CSS, and JavaScript Development:	€900
Cross-Browser Compatibility	€850
Web Accessibility	€950
Performance Optimization	€1,100
Progressive Web App (PWA) Development	From €1,200
Frontend Framework Integration	€1,150
User Experience (UX) Enhancement	€1,000
Animation and Interactivity	€1,100
A/B Testing Implementation	€950
Mobile Responsiveness Testing	€850
Content Management System (CMS) Integration	€1,000
Frontend Security Enhancement	€1,100
Responsive Web Design	€800

BACKEND

Server-Side Development	€950
Database Management	€900
API Development	€1,000
Microservices Architecture	From €1,200
Serverless Computing	From €1,100
Load Balancing and Scaling	From €1,250
Security and Authentication	€1,150
IoT Backend Development	€1,100
Real-Time Data Processing	€1,050
GraphQL API Implementation	From €1,200
Infrastructure Optimization	€1,050
Event-Driven Architecture	From €1,200
Backend Analytics and Monitoring	€1,000

MOBILE

iOS App Development	From €1,200
Android App Development	From €1,150
Mobile UI/UX Design	€1,050
Cross-Platform Development	From €1,100
Mobile App Testing	€1,000
App Store Deployment	From €1,050
Push Notifications	€950
Mobile App Analytics	From €1,000
In-App Purchases	From €1,050
Augmented Reality Integration	From €1,200
Wearable App Development	From €1,100
IoT Mobile App Development	From €1,200
Mobile Game Development	From €1,050
Progressive Web App (PWA) Integration	From €1,000

ECOMMERCE

Online Store Development	From €1,200
Shopping Cart Integration	From €1,150
Payment Gateway Integration	From €1,100
Product Catalogue Management	From €1,050
Inventory Management	From €1,050
Order Fulfilment Solutions	From €1,000
User Account and Profile Management	€1,000
Review and Rating Systems	From €950
Customer Support Integration	From €950
Multi-Currency and Multi-Language Support	From €1,100
Subscription Billing Systems	From €1,200

DEVOPS

Continuous Integration/Continuous Deployment (CI/CD)	From €1,100
Infrastructure as Code (IaC)	From €1,150
Containerization and Orchestration	From €1,200
Configuration Management	From €1,050
Monitoring and Alerting	From €1,000
Log Management and Analysis	From €1,000
Security and Compliance	From €1,100
Version Control Systems	From €950
Custom DevOps Solutions	From €1,200
Disaster Recovery Planning	From €1,100
Cloud Migration Services	From €1,200

UX/UI DESIGN

User Research	From €1,000
Wireframing and Prototyping	From €1,050
User Testing	From €1,100
Information Architecture	From €1,000
Visual Branding	From €1,150
Responsive Design	From €800
Interaction Design	From €1,000
Accessibility Design	From €950
Design System Creation	From €1,200
User Flow Optimization	From €1,050
Usability and Accessibility Audits	From €1,000
Illustration and Graphics	From €1,050
3D Modeling and Animation	From €1,200
Motion Graphics and Video Integration	From €1,150

AI & DATA SCIENCE

Data Analysis	From €1,200
Machine Learning	From €1,150
Natural Language Processing (NLP)	From €1,200
Predictive Analytics	From €1,150
Computer Vision	From €1,200
Recommendation Systems	From €1,150
Big Data Processing	From €1,150
Data Visualization	From €1,050
Speech Recognition	From €1,050
AI Strategy Consulting	From €1,200
Sentiment Analysis	From €1,150
Fraud Detection Solutions	From €1,200

COMPLETE PACKAGES

STARTER Development Package

From € 4,000

Frontend: Responsive Web

Backend: Server-Side Development

Mobile: iOS App Development

eCommerce: Online Store Development

DevOps: Continuous Integration/
Continuous Deployment (CI/CD)

UX/UI Design: User Research,
Wireframing, and Prototyping

AI & Data Science: Data Analysis

ADVANCED Development Package

From € 7,500

Everything in Package 1, plus:

Frontend: User Interface Development,
HTML, CSS, and JavaScript Development

Backend: Database Management, API
Development

Mobile: Android App Development,
Mobile UI/UX Design

eCommerce: Shopping Cart Integration,
Payment Gateway Integration

DevOps: Infrastructure as Code (IaC),
Containerization and Orchestration

UX/UI Design: Visual Branding,
Responsive Design, Interaction Design

PREMIUM Development Package

From € 10,000

Everything in Packages 1 and 2, plus:

Frontend: Cross-Browser Compatibility,
Web Accessibility, Performance
Optimization

Backend: Microservices Architecture,
Serverless Computing, Load Balancing
and Scaling

Mobile: App Store Deployment, Push
Notifications, Mobile App Analytics

eCommerce: Product Catalog
Management, Inventory Management,
Order Fulfillment Solutions

DevOps: Configuration Management,
Monitoring and Alerting, Log
Management and Analysis

UX/UI Design: Accessibility Design,
Design System Creation, User Flow
Optimization

AI & Data Science: Predictive Analytics,
Computer Vision, Recommendation
Systems, Big Data Processing, Data
Visualization, Speech Recognition

COMPREHENSIVE Development Package

The cost is calculated individually based on each project's specific requirements and scope. Contact us to receive a personalised quote tailored to your needs.

Everything in Packages 1, 2, and 3, plus:

Advanced Security Solutions:

- Implementation of robust authentication mechanisms to ensure data security and user privacy.
- Integration of encryption techniques to safeguard sensitive information.
- Regular security audits and penetration testing are used to identify and mitigate vulnerabilities.
- Adoption of secure coding practices to prevent common security pitfalls.

Emerging Technologies Integration:

- Exploration and integration of Blockchain technology for decentralised and secure transactions.
- Adoption of Internet of Things (IoT) for creating interconnected and smart systems.
- Implementation of Augmented Reality (AR) and Virtual Reality (VR) experiences for immersive interactions.
- Integration of edge computing for real-time data processing and reduced latency.

Advanced Analytics and Business Intelligence:

- Implementation of advanced analytics algorithms for deeper insights into customer behaviour and market trends.
- Integration of business intelligence tools for data visualisation and decision support.
- Development of custom dashboards for real-time monitoring of key performance indicators.
- Adoption of predictive modelling techniques for forecasting future trends and opportunities.

Custom Artificial Intelligence Solutions:

- Development of custom AI models tailored to your specific business needs.
- Implementation of Natural Language Processing (NLP) for sentiment analysis and language understanding.
- Deployment of machine learning algorithms for predictive maintenance and anomaly detection.
- Integration of reinforcement learning for autonomous decision-making and optimization.

Enhanced Content Management Systems (CMS):

- Customization and integration of Content Management Systems for seamless content creation and publishing.
- Implementation of headless CMS architecture for decoupled content management and flexible front-end development.
- Integration of content personalization features for delivering tailored content to users.
- Development of workflow automation solutions for streamlining content creation processes.
